

LIAISON®

SEPSIS**LIAISON® BRAHMS PCT®**
318101

Intended Use	For the quantitative determination of Procalcitonin (PCT)
Material Provided	Reagent Integral for 100 determinations
Method	2-step immunoluminometric assay using directly coated magnetic microparticles
Detection Limit	0.04-500 ng/mL
Calibrators	Not included
Incubations	20 min
Measuring Range	0.04-500 ng/mL
Sample Types	Serum/Plasma
Sample Size	75 µL
