

**LIAISON®****BONE & MINERAL METABOLISM****LIAISON® N-tact® PTH Assay**  
310910

<b>Intended Use</b>	For the quantitative determination of biologically active human parathyroid hormone (hPTH 1-84) in human serum or plasma.
<b>Material Provided</b>	Reagent Integral for 100 determinations. Diluent included.
<b>Method</b>	Competitive Immunoluminometric direct assay using directly coated magnetic microparticles
<b>Detection Limit</b>	<1.0 pg/mL
<b>Calibrators</b>	Included
<b>Incubations</b>	20 min
<b>Feature &amp; Benefits</b>	Low Cross-reactivity with PTH fragments.
<b>Measuring Range</b>	15-2000 pg/mL
<b>Sample Types</b>	Serum/plasma
<b>Comments</b>	For In Vitro Diagnostic Use

**LIAISON® 25 OH Vitamin D TOTAL Assay**  
310600

<b>Intended Use</b>	For the quantitative direct determination of 25-OH Vitamin D in human serum or plasma.
<b>Material Provided</b>	Reagent Integral for 100 determinations. Diluent included.
<b>Method</b>	Competitive immunoluminometric direct assay using directly coated magnetic microparticles
<b>Detection Limit</b>	<4.0 ng/mL
<b>Calibrators</b>	Included
<b>Incubations</b>	30 min
<b>Measuring Range</b>	4.0-150 ng/mL
<b>Sample Types</b>	serum/plasma
<b>Comments</b>	For In Vitro Diagnostic Use.
