### **DIASORIN RECEIVES CLEARANCE FOR THE LIAISON® N-TACT® PTH CALIBRATION VERIFIERS**

**Stillwater, MN, DATE, March 4th, 2010** - DiaSorin Inc. announced that it received Food and Drug Administration clearance for their LIAISON® N-TACT® PTH Calibration Verifiers.

The Calibration Verifier Set is a 4-level control set which can be used to meet CLIA requirements for calibration verification in clinical laboratories. The DiaSorin LIAISON® N-TACT® PTH Calibration Verifiers are intended for *in vitro* diagnostic use in the quantitative verification of calibration and reportable range of the LIAISON® N-TACT® PTH Assay when performed on the LIAISON® Analyzer. The DiaSorin LIAISON® N-TACT® PTH Calibration Verifiers are not intended for use as routine quality control materials or as calibration materials, and the test must be performed using the LIAISON® Analyzer.

DiaSorin's LIAISON® N-TACT® PTH Assay is a fully automated cleared assay for the measurement of intact parathyroid hormone in human serum or EDTA plasma, with a time-to-first result of 25 minutes and a throughput of 180 tests per hour.

DiaSorin is a worldwide provider of specialty immunoassays and the leader in Vitamin D testing with a history of expertise that spans over 25 years. The LIAISON® 25 OH Vitamin D TOTAL Assay is the only fully automated cleared chemiluminescent assay with a time-to-first result of 35 minutes and a throughput of 100 tests per hour.

#### **About DiaSorin**

DiaSorin S.p.A., an international player in the market for *in vitro* diagnostics, develops, produces and markets reagent kits for clinical laboratory diagnostics. DiaSorin Group comprises 20 companies based in Europe, the United States, Central and South America and Asia. It has more than 1,100 employees, including more than 100 research and development specialists, and operates four manufacturing and research facilities in Saluggia (Vercelli, Italy), Dietzenbach (Germany), Stillwater (USA) and Dublin (Ireland). Thanks to its direct sales organization and an international network of over 80 independent distributors, the Group is present in more than 60 countries, offering a broad array of high quality products that includes comprehensive lines for each of the clinical segments in which the Group operates: infectious and viral diseases, management of bone and calcium related diseases, thyroid pathologies, oncology and fertility testing.
